SUMMARY

Data Scientist with experience building reliable software and data products in collaborative engineering teams

EXPERIENCE

Data Scientist — Brightline Systems | 2023–2026

- Built production services used by internal teams; improved reliability and reduced recurring operational work
- Designed APIs, automated tests, and observability workflows across a multi-service environment.

EDUCATION

State University — B.S. Computer Science, graduated 2022

SKILLS

Java, Kafka, PostgreSQL, AWS
